

ROH Ford GT 5 Slot 14" Re-Release

Neale Wheels, Sydney is proud to announce the re-release of the GT 5 slot steel wheel in 14x6.0.

Neale Wheels have been nominated by ROH as the NSW, Qld, Vic, SA, NT Distributor for these highly sort after wheels.

ROH is an original equipment manufacturer. ALL wheels are manufactured using Blue Scope Steel, using tooling from ROH's famous 12 slot wheel, produced also for Ford.

Buy Buying the ROH produced wheel you are assured of the following product features and benefits..

- * Wheels fully comply to Australian Standards AS1638. To comply fully with this standard the centres are welded into each steel outer rather than the older riveted method. This means that each rim is suitable for use with tubeless tyres.
- * Wheels have superior & consistent steel thickness on both the rim sections & centres, making them sturdy for both street & race use.
- * All wheels are painted at the factory in Argent silver, the paint finish is guaranteed for 12 months whilst the structural integrity of each wheel is backed by ROH, Australia wide for a period of 5 years.
- * Every wheel is packed in an ROH carton.

"These would have to be the best quality 5 slot reproduction available in the market today".

Sizes 14x7.0, 14x8.0 will also available

Sizes 15" in widths up to 10" are also available on request.

Retail pricing for the 14x6.0 start at \$220.00 per wheel, \$880.00 for the set of 4 wheels.

There will be limited stock numbers available so get in quick. Trade enquiries welcome.
